I am writing to express my interest in the Senior Corporate Law & Corporate Financing Expert position at Flix. After reviewing the role requirements, I recognize that this position demands a fully German-qualified lawyer with extensive corporate law and financing experience.

My background is in software engineering, full-stack web development, and AI systems. I have worked on building scalable web applications, real-time communication systems, and AI-powered platforms using technologies like Laravel, Next.js, Node.js, and Python. While these skills are relevant to Flix's tech-driven approach to travel, they do not align with the legal expertise required for this specific role.

The position requires 8+ years of corporate law experience, German legal qualifications, and fluency in German and English. I do not hold legal qualifications or have professional experience in corporate law or financing.

I respect the specific requirements you have outlined and appreciate that Flix encourages applications from candidates who may not meet 100% of the qualifications. However, I want to be transparent about my background so your team can focus on candidates whose expertise directly matches this role.

Thank you for considering my application. I have attached my CV for your reference and wish you success in finding the right candidate for this position.

Sincerely,

Md Shahanur Islam Shagor
