I am applying for the Monitor de Concursos Racioc^›nio L^‡gico + Inform^¡tica position at V^›cio. Your focus on adapting exam materials for public tender preparation in the legal field caught my attention, and I believe my technical background and logical approach to structuring information would be valuable for this role.

Through my work as a software engineer, I have developed strong skills in logical reasoning and systematic problem-solving. My daily work involves analyzing complex requirements, identifying patterns, and breaking down information into clear, structured components. These skills transfer directly to the task of analyzing exam patterns and adapting content to match how topics are tested.

I am proficient with Google Drive and Canva, and I regularly create visual materials such as slides and structured documents for technical documentation and project presentations. I understand the importance of clear, organized, and visually accessible content for effective learning.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
