I am writing to apply for the Data Entry Clerk position at Mercer County Works. The role's focus on accuracy, data integrity, and remote collaboration aligns well with my work style and experience.

Throughout my career as a software engineer, I have developed strong organizational habits and a meticulous approach to handling information. Working with databases and data-driven applications has trained me to verify data for consistency, perform regular quality checks, and maintain confidentiality of sensitive information.

One area that particularly interests me is the opportunity to streamline data processes and improve data integrity. In my previous work, I have consistently met deadlines and productivity targets while collaborating effectively with team members in remote settings. I am comfortable working independently and managing time efficiently.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
