I am writing to express my interest in the Executive Assistant & HR Administrator role at People Architects. This position combines operational support, employee engagement, and coordination responsibilities that help leadership stay focused on growth and strategic priorities. I appreciate the emphasis on creating structure and improving communication within a fully remote organization.

My professional background has given me strong organizational and coordination skills. In my previous roles, I worked closely with company leadership, managed project timelines, coordinated team communications, and maintained documentation across multiple workstreams. I am comfortable handling details, prioritizing tasks, and ensuring that nothing falls through the cracks.

One area that particularly interests me is supporting employee experience and culture in a remote setting. I have experience working with distributed teams and understand the importance of clear communication, structured processes, and consistent follow-through. I am confident in my ability to help maintain employee records, coordinate onboarding and offboarding activities, and support internal communications.

In addition to my operational experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
