I am writing to apply for the Director of Sales Development position at INNERGY. Your work building purpose-built ERP software for custom manufacturers and the recent acquisition of Microvellum signal a company with real momentum and a clear vision.

My background is in software engineering, where I have spent years building scalable systems, collaborating across teams, and delivering results under deadlines. I understand what it takes to align technical and business stakeholders, own outcomes, and build processes that scale.

In my professional experience as a Web Developer, I worked closely with stakeholders to define requirements, plan capacity, and deliver reliable solutions. I am comfortable owning a number and defending it, whether that number is a delivery timeline or a pipeline target.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
