I am writing to apply for the Bauleiter (m/w/d) - Windparkbau position at Deutscher Bauservice GmbH. Your focus on building the complete infrastructure for wind parks and driving the energy transition is impressive. I am interested in contributing to projects that have a tangible impact on renewable energy development in Germany.

My background is in software engineering and AI, where I have developed strong skills in project coordination, documentation, and quality control. I am experienced with Linux, Docker, and CI/CD pipelines, which support efficient infrastructure management. I am also familiar with monitoring tools like Prometheus and Grafana, which help ensure system reliability and performance.

In my professional experience as a Web Developer at Explo-IT and DataSoft LTD, I managed full project lifecycles, coordinated with stakeholders, and ensured timely delivery. I have worked on projects involving real-time features, secure authentication, and payment integration, all of which required careful planning, documentation, and quality assurance.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application. I look forward to the possibility of discussing how I can contribute to your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
