I am writing to express my interest in the Business Development Partner (Freelance | Provision) role at people.done.right GmbH. Your approach of pairing someone who enjoys client acquisition with someone who excels at delivery matches how I prefer to work.

What stands out to me about people.done.right is the focus on pragmatic execution rather than theoretical concepts. You help companies where HR and recruiting capacity is lacking, and you deliver real results instead of just writing proposals. That practical mindset aligns with how I have built my own career.

I have experience identifying opportunities, building trust with new contacts, and connecting people with solutions that genuinely help them. Whether through my professional network or direct outreach, I am comfortable starting conversations and opening doors. I understand that business development is about listening first and matching needs with the right support.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a long-term partnership with fair terms and the freedom to work remotely. I would welcome the chance to discuss how I can contribute to growing people.done.right. My CV is attached for your review.

Sincerely,

Md Shahanur Islam Shagor
