I am writing to apply for the Assistant de formation F/H position at Universitˆ' de Bordeaux. The role's focus on supporting learners, managing administrative workflows, and contributing to a collaborative educational environment aligns well with my professional background and personal interests.

Through my experience as a Web Developer, I have developed strong organizational discipline and attention to detail. I have managed project timelines, coordinated with multiple stakeholders, and maintained accurate documentation across complex workflows. These skills translate directly to the administrative coordination required in this role.

One area that particularly interests me is the opportunity to support students and faculty throughout the training lifecycle. I am comfortable working with digital tools, managing data entry, tracking schedules, and ensuring that administrative processes run smoothly. I approach tasks methodically and take responsibility for accuracy and follow-through.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my organizational skills and commitment to supporting educational programs can contribute to the team at Universitˆ' de Bordeaux.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
