I am writing to apply for the Account Manager*in Vertrieb Home Care position at UrsCare GmbH. Your focus on patient-centered wound care and building strong regional networks aligns with my own approach to delivering results through structured collaboration and clear communication.

While my professional background is in software engineering, the core competencies required for this roleâ relationship building, strategic coordination, and process optimizationâ are skills I have developed and applied throughout my career. In my previous roles, I worked closely with diverse stakeholders, managed project timelines, and ensured that technical solutions met business objectives. I am comfortable taking ownership of goals and driving them forward with discipline and attention to detail.

One area that particularly interests me is the emphasis on building local and regional networks to optimize patient care. I have experience coordinating across teams and locations, maintaining clear communication channels, and adapting to the needs of different partners. I am confident I can apply this same structured approach to identifying and acquiring regional care structures, supporting wound care experts, and contributing to UrsCare’s growth in Munich.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to bring my organizational skills, independent work ethic, and commitment to quality to UrsCare. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
