I am writing to apply for the Werkstudent:in â Kundenkommunikation & Backoffice position at KarlvonDrais GmbH und Co. KG. As a current Software Engineering student with a strong foundation in digital tools and structured communication, I am well prepared to support your team in handling customer inquiries, managing tickets, and processing leasing operations efficiently.

In my previous work as a Web Developer, I regularly managed client communication, resolved support tickets, and coordinated with stakeholders to ensure smooth project delivery. These experiences have taught me to stay organized under pressure, respond clearly to customer needs, and handle administrative workflows with attention to detail.

One area that particularly interests me is the opportunity to work in a growing company like KarlvonDrais, where customer interaction and backoffice processes directly impact the business. I am comfortable using digital tools such as email systems, ticketing platforms, and MS Office, and I am confident I can quickly adapt to your specific workflows.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the chance to discuss how I can contribute to your team. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
