I am writing to apply for the PR- und Social Media Manager position at We are SAVVY. Your work across tourism, fashion, lifestyle, retail, and medical sectors since 2019 is impressive, and I am drawn to your focus on strategy, digital solutions, and events.

Although my professional background is in software engineering, I bring strong complementary skills that align with this role. I have hands-on experience with graphic design using Figma, content creation, and a deep understanding of social media platforms. My technical expertise includes SEO and link building, which are essential for digital visibility.

One area that particularly interests me is the combination of content creation and technical precision. Through my work developing full-stack web applications, I have written clear, textually accurate documentation, press releases, and user-facing content. I am comfortable working with media representatives and managing multiple communication channels simultaneously.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am organized, detail-oriented, and eager to contribute to SAVVY’s growing client base. I have attached my CV for your review and look forward to discussing how I can support your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
