I am writing to apply for the Meeting Coordinator position at Canvas Meetings & Incentives. The role's focus on coordinating events and supporting operations in a remote environment aligns with my experience managing cross-functional workflows and delivering projects on schedule.

In my professional experience as a Web Developer, I have coordinated feature delivery across teams, maintained clear communication with stakeholders, and ensured that project milestones were met consistently. I am comfortable working independently in remote settings and managing multiple priorities without losing attention to detail.

One area that particularly interests me is the opportunity to support event operations through structured coordination. My background in organizing development pipelines, tracking progress, and documenting processes translates well into the responsibilities of a Meeting Coordinator.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my coordination skills can support the Canvas Meetings & Incentives team.

Sincerely,

Md Shahanur Islam Shagor
