I am writing to express my interest in the Curso Humanizaciˆ‡n del Servicio (Atenciˆ‡n Primaria En Salud) offered by Comfenalco Valle delagente. This course aligns with my commitment to continuous learning and my interest in contributing to service-oriented environments where quality and empathy are central.

Although my professional background is in software engineering, I have developed strong analytical, problem-solving, and communication skills through years of working on complex technical projects. These skills translate well into any service-focused role, especially one that requires attention to detail, clear communication, and a structured approach to improving outcomes.

In my previous work as a web developer, I collaborated closely with stakeholders to understand their needs and deliver solutions that improved user experience and operational efficiency. This experience taught me the importance of listening carefully, adapting to different perspectives, and maintaining a patient-centered approach in every interaction.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to bring my dedication to learning and my service-oriented mindset to this course. I have attached my CV for your review and welcome the opportunity to discuss how I can contribute.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
