I am writing to apply for the Marketing Virtual Assistant position at Martell Media. Your company's focus on operational support and remote coordination aligns with my background in managing technical workflows and supporting business operations efficiently.

Through my professional experience as a Web Developer, I have developed strong organizational and communication skills. I have worked on coordinating tasks across teams, managing project timelines, and ensuring that deliverables are completed on schedule. These experiences have prepared me to handle the administrative and coordination responsibilities of a virtual assistant role effectively.

I am comfortable working with various software tools and platforms. My technical background allows me to quickly learn new systems, manage data accurately, and troubleshoot common issues independently. I am also experienced in maintaining clear documentation and communicating updates to stakeholders.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
