I am writing to apply for the Medical Scribe position at Angel City VA Recruitment. I understand the role requires precise documentation, attention to detail, and the ability to work independently in a remote setting.

Through my work as a software engineer, I have developed strong skills in accurate data entry, systematic documentation, and maintaining focus during repetitive tasks. I am comfortable working with detailed instructions and ensuring information is recorded correctly.

I am a quick learner and can adapt to new documentation systems and medical terminology workflows efficiently. My experience working remotely has taught me to manage time effectively and communicate clearly with team members.

In addition to my technical background, I communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
