I am writing to express my interest in joining Olymel through this spontaneous application. Your commitment to innovation, quality, and sustainable growth aligns with my own approach to building reliable and impactful systems. I am drawn to Olymel's focus on continuous improvement and collaborative teamwork.

With over four years of professional experience in full-stack development, I bring strong technical skills in Laravel, Next.js, React, Node.js, and database management with MySQL and PostgreSQL. I have designed and built scalable web applications, RESTful APIs, and real-time features using WebSockets and Socket.IO. My work also includes deploying and maintaining applications on Linux servers with Docker, Nginx, and CI/CD pipelines.

In my previous role at Explo-IT, I developed and maintained production applications, optimized database queries for performance, and integrated authentication systems and payment gateways. I also worked on responsive, SEO-friendly interfaces using Tailwind CSS and modern JavaScript frameworks. These experiences have given me a solid foundation in delivering reliable software that meets real business needs.

One area that particularly interests me is the opportunity to contribute to Olymel's Information Technology and Data Management or Engineering teams. I have hands-on experience with cloud platforms like AWS and Google Cloud, monitoring tools such as Prometheus and Grafana, and container orchestration with Kubernetes. I am comfortable working across the stack and adapting to new challenges.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the chance to discuss how I can contribute to Olymel's team. Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
