I am writing to apply for the Werkstudent (m/w/d) Accounting position at 360 Consulting GmbH in K^¶ln Zollstock. Your company's focus on supporting medium-sized businesses with modern Microsoft Dynamics 365 solutions is impressive, and I am interested in contributing to your team while gaining practical experience in accounting.

Although my academic background is in Software Engineering, I bring strong analytical capabilities, a structured approach to data management, and a high level of attention to detail. These skills transfer directly to accounting tasks such as processing invoices, reconciling accounts, and preparing reports. I am comfortable working with data-intensive systems and ensuring accuracy in every task I handle.

In my previous work as a Web Developer, I regularly managed complex data flows, maintained precise records, and collaborated with cross-functional teams to deliver reliable results. I am confident that my ability to work systematically and my comfort with digital tools will allow me to quickly adapt to your accounting workflows and contribute meaningfully from the start.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am currently enrolled as a Software Engineering student in Voronezh, which gives me the flexibility to work alongside my studies. I would welcome the opportunity to discuss how I can support your accounting team. I have attached my CV and cover letter for your review.

Sincerely,

Md Shahanur Islam Shagor
