I am applying for the Freelance Transcriptionist â Akan position at Perle. Perle's focus on expert-driven training data and linguistic nuance aligns with my own attention to detail and commitment to accuracy.

As a native Akan speaker with strong written fluency, I am confident in my ability to produce clean, accurate transcripts with correct spelling, punctuation, and grammar. I understand the importance of matching Speaker 1 to Channel 1 and adding precise timestamps in HH:MM:SS format.

I have a reliable computer and stable internet connection, and I can commit at least 4 hours per day to this role. I am comfortable working independently and meeting daily output targets while maintaining a Word Error Rate of 5% or less.

In addition to my language skills, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to complete the qualification test and begin production tasks immediately upon passing. I've attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
