I am writing to apply for the Praktikum - Right Hand CEO / Chief of Staff / M&A position at Matera GmbH. The opportunity to work directly with the Country Manager and contribute to the scaling of the German market is exactly the kind of hands-on, strategic role I am looking for at this stage of my career.

What stands out to me about Matera is its mission to make property management simpler and more transparent for homeowners. Since 2017, the company has been serving over 100,000 homeowners in France, and since 2021, it has been building a strong presence in Germany. I find it compelling to join a growing SaaS startup where I can contribute to operational efficiency and market expansion from a position close to the leadership team.

In my previous work as a Web Developer, I collaborated directly with stakeholders and engineering teams to coordinate project delivery, manage internal communication, and ensure smooth execution of cross-functional tasks. This experience taught me how to work as a reliable bridge between different teams, handle multiple priorities, and take ownership of initiatives from planning to completion.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of German and Russian, and enjoy collaborating in international and cross-cultural environments.

I am organized, proactive, and ready to take on responsibility from day one. I have attached my CV for your review and would welcome the chance to discuss how I can support Matera’s growth in Berlin.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
