I am writing to apply for the Interim Recruiter Talent Acquisition (m/w/d) position at MY Humancapital GmbH in Munich. Your focus on managing the full recruiting process and ensuring a positive candidate experience aligns with my strengths in communication, coordination, and structured workflow management.

Although my professional background is in software engineering, I have developed strong organizational and interpersonal skills through managing complex projects with multiple stakeholders. In my work as a Web Developer, I coordinated closely with cross-functional teams, managed timelines, and maintained clear communication between technical and non-technical colleagues. These experiences have given me a solid foundation in process management and stakeholder coordination.

One area that particularly interests me is the emphasis on candidate experience and smooth recruiting workflows. I am comfortable managing administrative tasks, organizing schedules, and maintaining accurate records. My ability to communicate clearly in both English and German allows me to interact effectively with candidates and internal teams.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can contribute to your team. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
