I am writing to apply for the Water Safety Specialist position at Four Seasons. The Ocean Club's reputation for delivering exceptional guest experiences in a luxury resort environment is impressive, and I am drawn to the opportunity to contribute to the safety and well-being of guests in such a beautiful setting.

My background is in software engineering and systems development, where I have developed strong skills in monitoring, problem-solving, and following detailed protocols. In my previous work as a Web Developer, I was responsible for ensuring system reliability, performing regular checks, and responding quickly to issues. These experiences have taught me the importance of vigilance, clear communication, and adherence to safety procedures.

I am a quick learner and a hard worker, comfortable with both independent tasks and team collaboration. I am confident in my ability to learn the specific safety protocols, water rescue techniques, and equipment operations required for this role. I am also experienced in maintaining cleanliness and organization in my work environment.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
