I am writing to apply for the Preparador de Vehiculos Hatillo position at Enterprise. I understand that this role focuses on vehicle cleaning, inspection, and site maintenance, and I am prepared to contribute with a strong sense of responsibility and attention to detail.

My professional background is in software engineering, where I have developed a disciplined approach to following procedures, documenting work accurately, and maintaining organized systems. These habits translate directly into the kind of reliable, thorough work this position requires.

I am comfortable with physical tasks, including cleaning interiors and exteriors, checking fluid levels, inspecting tires, and maintaining a clean and safe work area. I take direction well and am committed to performing each task to the standard expected.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am available to work a minimum of 40 hours per week, including weekends, and I am ready to start immediately. I have attached my CV for your review and welcome the opportunity to discuss how I can support the Enterprise team in Hatillo.

Sincerely,

Md Shahanur Islam Shagor
