I am writing to apply for the Team Leader Supervisor position at Clean Bees. The role involves coordinating daily or evening cleaning operations as part of a small team, and I am interested in contributing to your organization in Bristol.

While my professional background is in software engineering and web development, I bring strong organizational skills, reliability, and experience working collaboratively in team-based environments. I have worked remotely and onsite with cross-functional teams, managing tasks, deadlines, and communication across different roles.

In previous roles, I have taken responsibility for coordinating workflows, ensuring quality standards, and supporting team members to meet shared goals. I am comfortable working independently or as part of a small group, and I adapt quickly to new processes and environments.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am available for both part-time and full-time hours in Bristol and would welcome the opportunity to discuss how I can contribute to the Clean Bees team. I have attached my CV for your review.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
