I am writing to apply for the Werkstudent*in HR position at Matera GmbH. Your mission to make property management transparent and simple for homeowners is genuinely compelling, and I am drawn to the opportunity to support a rapidly scaling team in Berlin.

Although my professional background is in software engineering, I have developed strong organizational and communication skills through managing complex projects and collaborating across multidisciplinary teams. I am accustomed to working in structured, detail-oriented environments where coordination and clear communication are essential.

In my previous work as a web developer, I was responsible for coordinating with stakeholders, managing timelines, and ensuring that deliverables met quality standards. These experiences have taught me how to prioritize tasks, maintain clarity under pressure, and support team members effectively.

I am fluent in Bengali and English, have working knowledge of German, Russian, and Hindi, and enjoy collaborating in international and cross-cultural environments. I am eager to learn HR processes and contribute to building a great employee experience at Matera.

I have attached my CV for your review and would welcome the chance to discuss how I can support your team during this exciting growth phase.

Sincerely,

Md Shahanur Islam Shagor
