I am writing to apply for the Junior Projektleiter (m/w/d) position at BIMEXPERTS GmbH. Your focus on modernizing TGA-Planung through BIM, digital tools, and KI-gestˆ…tzte Arbeitsweisen aligns with my interest in combining technical understanding with structured project coordination.

Through my professional experience as a Web Developer, I have supported project leads in delivering complex technical projects on time. I coordinated with developers, designers, and stakeholders to track milestones, manage open points, and ensure information was documented and followed up properly. This has given me a solid foundation in the organizational side of project work.

One area that particularly interests me is the opportunity to work with BIM processes and digital planning tools. I am comfortable learning new software systems and have experience integrating modern tools into existing workflows. My technical background allows me to understand technical plans, models, and calculations, and I am eager to deepen this knowledge in the context of TGA-Planung.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to take on responsibility, ask questions, and grow step by step into an independent project leadership role. I have attached my CV for your review and look forward to the possibility of contributing to BIMEXPERTS.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
