I am writing to express my interest in the Steuerberater position at Taxtalente.de for your partner firm in Sulzfeld. Although my professional background is in software engineering rather than tax consulting, I bring a strong technical foundation and a methodical approach to problem-solving that aligns well with the digital and efficient working environment you describe.

My experience as a Full-Stack & AI Engineer has involved building secure, scalable web applications using Laravel, Next.js, React, and MySQL. I have implemented authentication systems, role-based access control, and optimized database performance through query tuning and indexing. This technical discipline translates directly into the kind of careful, efficient, and gewissenhafte Arbeitsweise that the role requires.

One area that particularly interests me is the emphasis on a digital Arbeitsweise and modernste Ausstattung. In my professional experience, I have deployed and maintained applications on Linux servers using Nginx, Docker, and CI/CD pipelines. I am comfortable working with digital tools and processes, and I can quickly adapt to new software environments.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my technical skills and careful work ethic could contribute to your partner firm in Sulzfeld.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
