I am writing to apply for the Entry-Level Administrative Assistant position at Recruit Lytics Hiring. Your organization's focus on maintaining efficient operations and supporting a productive workplace aligns with my own approach to work. I am interested in contributing to your administrative team and building a long-term career in this field.

Through my professional experience as a web developer, I have developed strong organizational habits and attention to detail. I regularly managed project documentation, coordinated schedules across teams, and handled communications with clients and stakeholders. These responsibilities required me to prioritize tasks effectively and maintain accurate records, skills that transfer directly to an administrative role.

I am proficient with digital tools and comfortable learning new software systems. My technical background has given me the ability to work efficiently with spreadsheets, documents, and communication platforms. I am also experienced in maintaining clear and professional correspondence, whether through email, reports, or internal communications.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to bring my organizational skills, reliability, and willingness to learn to the Recruit Lytics Hiring team. I have attached my CV for your review and welcome the opportunity to discuss how I can contribute to your administrative operations.

Sincerely,

Md Shahanur Islam Shagor
