I am writing to apply for the Social Media Manager position supporting Chef Nikolas Laios and the Laios Olive Oil brand. Your vision of building a global movement around Mediterranean culture, longevity, and world-class gastronomy is compelling, and I understand that this role requires more than content scheduling. It demands a storyteller who can write with depth, authenticity, and cultural understanding.

Although my professional background is in software engineering, I have developed strong English copywriting skills through years of writing technical documentation, project proposals, and client communications. I know how to translate complex ideas into clear, engaging language that resonates with different audiences. Writing captions about longevity principles, Blue Zone concepts, and food as medicine is a challenge I would approach with the same care and precision I bring to technical work.

I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments. I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders.

I am looking for a long-term role where I can grow with the brand and contribute meaningfully to something extraordinary. I have attached my CV for your review.

Thank you for your consideration.

Sincerely,

Md Shahanur Islam Shagor
