I am writing to apply for the Marketing Assistant role at JazzUpCo. Your vision of building a design-first homeware brand that has already served over 100,000 customers is impressive, and I am drawn to the opportunity to support the day-to-day execution behind your marketing efforts.

My background includes strong organisational skills and attention to detail, which I have developed through managing multiple concurrent tasks in software development projects. I am comfortable working with tools like Google Drive and am quick to learn new platforms, including Shopify, Notion, Canva, or Klaviyo. I have experience supporting website updates, reviewing content for accuracy, and coordinating with teams to keep projects moving.

In previous work, I supported quick website updates including product pages, banners, and promotional changes. I also assisted with reviewing content for formatting and consistency, and I am used to jumping into projects where needed to act as a reliable helping hand. I enjoy variety and staying organised while managing multiple small tasks.

In addition to my organisational experience, I work effectively across teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to bring my reliability, positive attitude, and willingness to learn to JazzUpCo. I have attached my CV for your review and look forward to the opportunity to contribute to your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
