I am writing to express my interest in the Account Executive role at Stern Strategy Group, working with Minds Worth Meeting Podcast. While my professional background is in software engineering, I bring strong client-facing experience, structured communication skills, and a track record of managing complex projects from initial conversation through successful delivery.

What draws me to Stern Strategy Group is the caliber of thought leaders you represent and the impact your work has on helping organizations navigate critical business challenges. The idea of connecting world-class expertise with organizations that need it aligns with my own approach to building solutions that solve real problems.

In my previous roles, I worked directly with clients and stakeholders to understand their needs, scope requirements, and manage expectations throughout the project lifecycle. I developed the ability to communicate technical concepts clearly to non-technical decision-makers and to build lasting professional relationships based on trust and reliable delivery.

I am comfortable operating independently in a remote environment, managing multiple priorities simultaneously, and maintaining clear documentation and communication across teams. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural settings.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
