I am writing to apply for the Asesor de Atenciˆ‡n al Cliente position at Partner Service. The opportunity to work with Claro customers through phone and WhatsApp appeals to me because I enjoy direct communication and helping people resolve their questions effectively.

While my background is in software engineering, I have consistently worked in roles that require clear communication, patience, and a structured approach to problem-solving. I am comfortable explaining technical and non-technical information to different audiences, and I adapt quickly to new tools and workflows.

One area that particularly interests me is the emphasis on training and growth. I am a quick learner by nature, and I value environments where I can develop new skills while contributing from day one. I bring a positive attitude, reliability, and a genuine interest in providing good service.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the chance to discuss how I can contribute to your team.

Thank you for your time.

Sincerely,

Md Shahanur Islam Shagor
