I am writing to apply for the Freelance Designer position at SAN Creatives Agency. Your approach of hiring based on core values and empowering candidates to excel resonates with me, and I appreciate the emphasis on craftsmanship and research-driven design.

As a full-stack developer with a strong focus on frontend and UI/UX, I have built complete user interfaces for platforms in travel, real estate, and finance. My design work is grounded in practical usability, responsive layouts, and clean visual hierarchy. I use tools like Figma, Tailwind CSS, and MaterialUI to translate concepts into polished, functional interfaces.

Through my professional experience, I have delivered projects that required close attention to user experience, branding consistency, and cross-platform compatibility. I have worked on multi-language and multi-currency travel platforms, AI-powered dashboards, and real-time monitoring systems, always prioritizing clarity and ease of use.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV and portfolio for your review. I would welcome the opportunity to contribute to your creative projects.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
