I am writing to express my interest in the Personalsachbearbeiter (m/w/d) Personalwesen & Lohnabrechnung position at careful-service GmbH. Your company's 11-year track record in organizing and coordinating 24-hour home care across Germany speaks to a level of operational reliability that I deeply respect.

My background is in software engineering, where I have spent years building structured, data-driven systems. I have worked extensively with databases such as MySQL and PostgreSQL, managing large volumes of sensitive data with accuracy and security. This experience has given me a disciplined approach to data entry, validation, and record-keeping that translates well into payroll and personnel administration.

In previous work, I have handled complex workflows involving authentication, role-based access control, and secure document generation. I am comfortable working with precision under deadlines, maintaining confidentiality, and following structured processes. I am also experienced with MS Office and various digital tools for documentation and communication.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my structured work style and technical discipline can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
