I am writing to express my interest in the Steuerberater position at Taxtalente.de for a partner firm in Bargfeld-Stegen. While my professional background is in software engineering rather than tax consulting, I bring strong technical skills and a digital-first working style that align well with the modern, efficient environment your partner firm offers.

Through my professional experience as a Web Developer, I have built and maintained scalable web applications using Laravel, Next.js, and MySQL. I have worked extensively with database systems, API integrations, and authentication workflows. This technical foundation allows me to handle data accurately, automate repetitive tasks, and work efficiently with digital tools, which directly supports the digital Arbeitsweise and modernste Ausstattung emphasized in your description.

One area that particularly interests me is the opportunity to work in a firm that values flexibility, digital processes, and strong team collaboration. I am comfortable working independently or as part of a team, and I communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my technical skills could contribute to the digital and operational goals of your partner firm. Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
