I am writing to apply for the Video Editor position at Bloom & Beyond Design LLC. While my core expertise is in software engineering, I have developed a strong eye for detail, a structured approach to content organization, and the ability to learn new tools quickly. I am confident these skills will allow me to contribute effectively to your team.

I understand that this role requires editing short-form content for Instagram Reels and TikTok, with a focus on strong hooks, smooth pacing, and premium visual quality. I am a fast learner who is comfortable adapting to new software and creative workflows. I am ready to invest time upfront to fully understand your brand's editing style and deliver content that aligns with your luxury interior design identity.

In my previous work as a Web Developer, I collaborated closely with designers and stakeholders to deliver polished, user-facing products. This experience has given me a disciplined approach to meeting deadlines, managing raw assets efficiently, and maintaining consistent quality across multiple deliverables. I apply the same structured workflow to any creative task I take on.

In addition to my technical background, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to complete an editing test and demonstrate my ability to learn and deliver high-quality short-form content for Bloom & Beyond Design LLC.

Sincerely,

Md Shahanur Islam Shagor
