I am writing to apply for the Online Marketing Manager position at VOGGSMEDIA. Your agency's focus on measurable growth through platforms like Meta and Google, combined with a remote-first and collaborative culture, stands out to me. I am interested in contributing to client success through structured analysis and clear communication.

My professional background is in software engineering, where I have spent over four years building and delivering full-stack web applications. This experience has given me a strong foundation in data analysis, performance optimization, and systematic problem-solving. I am accustomed to working with metrics, identifying trends, and making data-informed decisions to improve outcomes.

In previous work as a Web Developer, I managed client-facing projects end-to-end, from requirement gathering to deployment and ongoing support. I regularly communicated with stakeholders to understand their needs, translated those into technical solutions, and ensured timely delivery. This has developed my ability to take ownership, prioritize tasks independently, and maintain clear communication across teams.

One area that particularly interests me is the emphasis on self-organization and proactive initiative within your team. I have worked remotely for several years, managing my own schedule and multiple projects simultaneously. I am comfortable taking responsibility for client portfolios, analyzing performance data, and proposing actionable improvements without needing constant supervision.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to VOGGSMEDIA's continued growth.

Sincerely,

Md Shahanur Islam Shagor
