I am writing to apply for the Document Formatting Specialist position at Sharon Wells. Your focus on precision, detail-oriented work, and independent task management aligns well with my background in software development and document-related tasks.

Through my work as a Web Developer, I have developed strong skills in formatting content, inputting data accurately, and maintaining consistency across documents. I am experienced with various office productivity tools and have a solid command of grammar and vocabulary, which I apply when structuring and reviewing written materials.

One area that particularly interests me is working independently to meet stringent deadlines. In previous projects, I have managed multiple formatting and data input tasks simultaneously, ensuring accuracy while delivering on time. I am comfortable taking ownership of assignments and following through without constant supervision.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.
