I am writing to express my interest in the Web Developer role at My Green Lab. My Green Lab's mission to drive environmental change through sustainable laboratory practices is meaningful work, and I would welcome the opportunity to contribute my technical skills to your team.

Through my professional experience as a Web Developer, I have built full-stack applications using Laravel, Next.js, React, TypeScript, and Tailwind CSS. I focus on creating responsive, user-friendly interfaces backed by reliable APIs and well-structured databases. My work includes implementing authentication systems, role-based access control, and payment integrations, all of which are essential for building secure and scalable web platforms.

In previous work at Explo-IT, I developed and maintained web applications end to end. I built RESTful APIs, optimized database queries using Eloquent and MySQL, and deployed applications on Linux servers with Nginx and Docker. I also delivered real-time features using WebSockets and integrated third-party services like payment gateways and cloud storage. These experiences have given me a practical understanding of what it takes to ship production-ready software.

One project that reflects my approach is the Multivendor E-commerce Management Ecosystem, where I built a Laravel backend with role-based access control, MySQL, and Firebase notifications. The system coordinated customers, sellers, and delivery agents through a unified API layer. I also developed the frontend using Flutter for mobile platforms, ensuring a consistent experience across devices.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background aligns with the needs of your team.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
