I am writing to apply for the Art Director Brand & Concepts role at Stio. Your commitment to mountain lifestyle and authentic outdoor culture resonates with me, and I appreciate how Stio blends functional design with a strong visual identity rooted in nature.

My background is in full-stack development and UI design, where I have built responsive, brand-consistent digital experiences. I am proficient in Figma and have a solid understanding of typography, layout, color systems, and design principles. I know how to translate creative concepts into polished interfaces that work across web and mobile.

One area that particularly interests me is the balance between brand identity and commercial effectiveness. In my development work, I have contributed to projects where visual storytelling and user experience had to align with business goals. I am comfortable presenting ideas clearly and collaborating with designers, developers, and stakeholders to bring concepts to life.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
