I am writing to apply for the Teamleitung Buchhaltung / Finance (m/w/d) position at sera Werke Heimtierbedarf J. Ravnak GmbH & Co.KG. Your company's reputation as a leading provider of aquarium and terrarium products, combined with its family-owned, internationally operating structure, makes this an appealing opportunity.

Although my professional background is in software engineering rather than traditional accounting, I have developed strong analytical and process-oriented skills through years of building complex, data-driven applications. My experience includes designing systems that handle financial transactions, payment processing, and secure data management, which has given me a practical understanding of financial workflows and data integrity.

In my previous role as a Web Developer, I built and maintained full-stack applications that required careful attention to financial data, including payment gateway integration, subscription management, and transaction reporting. These projects demanded precision, clear documentation, and the ability to optimize processes for accuracy and efficiency.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills could contribute to your finance team.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
