I am writing to apply for the Content - Ersteller:in position at CREABLO GmbH. Your plan to build a social media presence from scratch for a growing construction company in Hamburg is exactly the kind of hands-on, creative challenge I am looking for.

Although my primary background is in software engineering, I bring a strong visual and technical skill set that directly supports content creation. I have experience with Figma for designing graphics and layouts, and I have built responsive, user-friendly interfaces using HTML, CSS, and JavaScript. I am comfortable using smartphone cameras and editing tools like CapCut to produce short videos and posts.

One area that particularly interests me is developing content strategies and editorial plans. In my previous work, I have managed project timelines, coordinated with teams, and delivered results independently. I am confident I can help build your Instagram and LinkedIn presence with authentic, engaging content that attracts both talent and B2B clients.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV and look forward to the opportunity to contribute to CREABLO’s growth.

Sincerely,

Md Shahanur Islam Shagor
