I am writing to apply for the Trainee eCommerce Management (TikTok Shop) position at ADBAKER. Your position as one of the leading TikTok Shop agencies in Germany and the opportunity to learn social commerce from the ground up is exactly the kind of challenge I am looking for.

Through my professional experience as a Web Developer, I have built and managed full-stack eCommerce platforms from the ground up. One project I led was a multi-vendor e-commerce ecosystem using Laravel and MySQL, where I handled product listings, catalog management, role-based access control, and order workflows. This experience gave me a solid understanding of how online marketplaces operate and how to optimize product structures for better performance.

I am comfortable working with data and KPIs. In my previous roles, I regularly analyzed application performance, identified bottlenecks, and implemented improvements. I am confident I can apply the same analytical mindset to eCommerce KPIs like GMV, CR, CTR, and ROAS, and translate them into actionable strategies for TikTok Shop operations.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to take ownership, learn fast, and contribute to ADBAKER’s growth in the TikTok Shop space. I have attached my CV for your review and look forward to the opportunity to discuss how I can support your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
