I am writing to apply for the Studentische Aushilfe (w/m/d) Office & Operations Support position at Little Dot Studios Deutschland. As a current Software Engineering student at Voronezh State University, I am looking for an opportunity to contribute to a creative and fast-moving media environment while gaining practical experience in office operations and team support.

Little Dot Studios' reputation as a leading multi-platform production company and YouTube specialist for premium entertainment and sports brands is impressive. The chance to work within a global team that reaches over 11 billion monthly views while learning from experienced professionals in Munich is exactly the kind of environment where I can grow.

Through my academic and professional experience, I have developed strong organizational and coordination skills. I have supported management teams with operational processes, scheduling, travel coordination, and preparation of presentation materials. I am comfortable handling multiple tasks simultaneously and maintaining a clear overview of priorities in a busy office setting.

In addition to my technical background, I bring reliable administrative capabilities including event organization, office supply management, and mail processing. I work in a structured and service-oriented manner, and I am comfortable communicating with clients and team members in both German and English. My experience working across different cultures has taught me to adapt quickly and collaborate effectively.

I am currently enrolled at a university and available for approximately 15 hours per week. I would welcome the opportunity to bring my organizational skills, positive attitude, and willingness to learn to your team in Munich. I have attached my CV for your review.

Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
