I am writing to apply for the Key Account Manager Sˆ…ddeutschland position at ICAPE GROUP. Your role in managing and developing key customer relationships in Germany, combined with the fully remote setup and frequent client travel, aligns well with my ability to work independently across international markets.

ICAPE GROUP's position as a European leader in Printed Circuit Boards and custom-made electro-mechanical parts is impressive. The opportunity to offer technical solutions to clients and coordinate with engineering, quality, and supply chain teams resonates with my experience in delivering complex technical projects.

In my previous work as a Web Developer, I regularly coordinated between clients, internal teams, and external stakeholders to deliver custom solutions on time. I am comfortable managing multiple priorities, preparing detailed documentation, and maintaining clear communication across departments.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and welcome the opportunity to discuss how my background can contribute to ICAPE GROUP's continued growth in Germany.

Sincerely,

Md Shahanur Islam Shagor
