I am writing to express my interest in the Customer Success Manager position at Mendato GmbH. Your B2B SaaS solution for building service providers addresses a real operational challenge, and I find the focus on digitalizing daily workflows through a modern platform compelling.

As a Full-Stack & AI Engineer with hands-on experience building and supporting B2B SaaS platforms, I bring a strong technical foundation to customer-facing roles. I have worked across the full product lifecycle, from developing features with Laravel and Next.js to deploying and maintaining applications on Linux servers. This technical background allows me to quickly understand how your software works, anticipate customer questions, and provide meaningful guidance during onboarding and daily use.

In my professional experience, I have collaborated closely with stakeholders, engineering teams, and clients to ensure smooth product adoption and satisfaction. I have conducted training sessions, gathered user feedback, and translated customer needs into actionable improvements for the product team. I am comfortable communicating with everyone from operational teams to company leadership, and I approach each interaction with empathy and clarity.

One area that particularly interests me is the opportunity to help shape your Customer Success processes from an early stage. I enjoy working in small teams where ownership and initiative matter, and I am drawn to the collaborative, feedback-driven culture you describe.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the chance to discuss how I can contribute to your team and your customers' success.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
