I am writing to apply for the WAREHOUSE OFFICER position at COACTUM RPE. Your company's long-standing experience in industrial applications and commitment to international standards caught my attention.

Through my professional experience as a full-stack developer, I have built systems that require careful tracking, organization, and real-time data management. These skills translate directly to warehouse operations where accuracy and systematic workflows are essential.

In previous work, I developed a real-time server health monitoring dashboard that tracks availability and performance metrics across multiple endpoints. This project required precise data logging, scheduling, and alerting mechanisms that mirror the attention to detail needed in warehouse inventory management.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background can contribute to COACTUM RPE's operations.

Sincerely,

Md Shahanur Islam Shagor
