I am writing to apply for the Pˆdagogische Projektkoordination Berufliche Orientierung position at Sinus - Bˆ…ro fˆ…r Kommunikation GmbH. Your work in developing educational projects for public institutions, particularly in the areas of prevention, health, and social affairs, aligns with my interest in contributing to meaningful societal initiatives.

Although my professional background is in software engineering, I have developed strong project coordination, organizational, and quality management skills through delivering complex technical projects. I have experience planning and coordinating multi-stakeholder initiatives, managing budgets, and ensuring that quality standards are consistently met across all deliverables.

In my previous roles, I coordinated closely with cross-functional teams including developers, designers, and external stakeholders to plan, execute, and deliver projects on time and within scope. I am comfortable managing workflows, documenting processes, and maintaining clear communication across different departments and external partners.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my organizational skills, attention to detail, and ability to coordinate complex projects would allow me to contribute effectively to your team. I have attached my CV for your review and welcome the opportunity to discuss how my experience aligns with this role.

Sincerely,

Md Shahanur Islam Shagor
