I am writing to apply for the Cuidador/a de Niˆ–os position at TUS Media. The opportunity to combine childcare with academic support aligns well with my experience working with young learners.

Through previous tutoring and mentoring roles, I have developed a practical approach to helping children with their homework. I focus on breaking down complex topics into manageable steps and using positive reinforcement to build confidence. I also enjoy creating educational games and activities that make learning feel natural and engaging rather than forced.

One area that particularly interests me is the flexibility this role offers. I am comfortable adapting my approach based on each child's learning style and energy level. Whether a child needs focused help with math problems or a more playful approach to language learning, I adjust my methods to keep them motivated and progressing.

In addition to my work with children, I communicate clearly and patiently with both kids and parents. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating with families from different cultural backgrounds.

I have attached my CV for your review and would welcome the chance to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
