I am writing to apply for the Admissions Coordinator position at Discovery Institute Drug & Alcohol Rehab New Jersey. The role of conducting client assessments and coordinating care in a remote setting aligns with my background in structured communication and process coordination.

Through my professional experience as a Web Developer, I have developed strong skills in remote collaboration, maintaining detailed records, and coordinating with team members to deliver results. I am comfortable working independently in a remote environment and communicating effectively through digital tools.

One area that particularly interests me is the responsibility of conducting remote consultations and explaining programs to individuals seeking treatment. My experience working across international teams has taught me to communicate clearly and empathetically with people from diverse backgrounds.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my coordination skills and remote work experience can contribute to your admissions team.

Sincerely,

Md Shahanur Islam Shagor
