I am writing to apply for the Praktikum Online-Marketing im Bildungsbereich position at GRB Gemeinnˆ…tziges Rheinisches Bildungszentrum GmbH. Your work in preparing international students for academic success in Germany through language, integration, and education is genuinely meaningful. I would like to contribute to your marketing and digital presence efforts.

Through my web development experience, I have built and maintained websites using technologies like Next.js, React, Tailwind CSS, and Laravel. I understand how to create and update web pages, manage content, and ensure a clean, user-friendly experience. These skills directly apply to the Erstellung und Pflege der Website tasks mentioned in the role.

I have also worked on creating content for digital platforms and supporting social media channels. In previous projects, I collaborated with teams to produce engaging web content and manage data in CRM-like systems. I am comfortable working with CMS tools and can quickly adapt to new platforms.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your consideration. I would welcome the opportunity to discuss how I can support your marketing team at GRB.

Best regards, Md Shahanur Islam Shagor

Sincerely,
